JETT MAY CONFESS

His Friends Said to be Deserting
Him in Cockrell Case.

His Mother Makes a Pathetic Appeal
to Brother of Murdered
Man.

EVIDENCE NOW BEING HEARD

Cynthiana, Ky., Sept. 18—The trial of Curtis Jett for the murder of James Cockrell at Jackson, Ky., has begun here, the jury having been sequestered, and is arousing great interest. It promises to develop a sensation or two before it is finished and the latest indication is that Jett will make a confession in order to save himself from the gallows.

Thomas Cockrell, prosecuting witness in the case against Jett for killing his brother made a sensational statement yesterday afternoon. Cockrell stated that Curtis Jett's mother had just appealed to him because the friends of her son in former trials were now deserting him. Cockrell says Jett's mother says her son will tell all if he is spared from the gallows.

Cockrell says he told her the case was now beyond his control and then he learned that Jett was with difficulty prevented from making a confession involving prominent people and that he had said he would confess all before he would stand trial in the pending case, and that the only chance now of preventing a confession was in continuance of the case.

Mrs. Hagan, the mother of Curtis Jett, in appealing to Thomas Cockrell, named all the prominent people

in Jackson, Ky., who helped her son in the Marenn murder trial, and said they were now deserving him in the Cockrell case. She reminded Cockrell that he and Curtis Jett were first cousins, that the same blood coursed through their veins, and her boy was not the one responsible for the death of his brother, Jim Cockrell, and others.

When Judge Osborne overruled the motions for continuance the state began its evidence.

John Patrick, who is now residing in Charleston, W. Va., and who has testified in former trials, that he was compelled to leave Jackson because of his knowledge of the killing of Marenn, Cockrell, Cox and others, testified that he was in his office at Jackson just across the street from the courthouse, when he heard the shooting and saw Cockrell fall. He saw the gun projecting from the window of the court house, and recognized Curtis Jett as one of the men at the window from which the shooting was done. He saw Jett come out of the courthouse door immediately after the shooting with a gun in his hand.

The testimony of Patrick was fully corroborated by Riley Coldiron, Henry Strong, J. C. Baich and T. T. Cope also testified to being in an office across the street from the courthouse, to witnessing the shooting and to seeing Jett immediately after Cockrell fell, come out of the front entrance of the courthouse.

This morning witnesses testified they heard the shots fired and immediately afterwards saw Jett come out of the courthouse, thus corroborating the six of yesterday's. Harrison Blanton said he heard Jett say: "This is the forty-fifth that I laid low and now I'll visit my kinfolks."

Noah Peters and Robert Blake described Jett's actions after the shooting when he came out of the court house. Judge Redwine and other wit-

nesses from Jackson, Ky., were present today.

MORE EVIDENCE

ALLEGED TO HAVE BEEN DISCOVERED AGAINST JORDAN BURTRAM.

The Benton Tribune-Democrat of yesterday states in connection with the cases against Mrs. Wm. Cox and W. R. Burtram, for poisoning Bill Cox, the woman's husband, at Benton two weeks ago, that additional evidence has been discovered against them both since the trial, and that more evidence has been discovered against Jordan Burtram, W. R. Burtram's son who was acquitted at the examining trial, and he will probably be again warranted.

BEGINS WEDNESDAY

WORK ON SECOND STREET TO BE COMMENCED THEN.

It was announced today that the work of excavating on Second street for the paving will be commenced next Wednesday. There is so much work such as relaying pipes, building stormwater sewers and other things necessary before the paving proper can begin, that it is deemed best to begin now, and the curbing will probably have arrived by the time the preliminary work, which may require two weeks, is complete.

BURNS FATAL

COLORED WOMAN DIES FROM LAMP EXPLOSION INJURIES.

Lany Garnett, colored, who was burned by a lamp explosion at the residence of her son-in-law, Mose Anderson in the rear of the Hiram Blow stove factory Wednesday morning, died this morning about 8 o'clock from burns.

It will be remembered she was carrying a lighted lamp from one room to another when she let it drop, and while trying to catch it caused the lamp to explode and was completely enveloped in flames from the burning oil. She cried for help and a brother of Anderson threw water on her and extinguished the blaze but not until she had been fatally burned.

She came here from Mayfield several weeks ago and the remains were prepared for burial this morning and will be shipped to Mayfield for burial today.

NO FROST

THE LOWEST TEMPERATURE IN THE CITY WAS 46

The minimum temperature last night was 46, slightly cooler than the night before. Many people have appeared in overcoats, but the indications are for warmer weather tomorrow. Several farmers on the market today reported a light frost but Government Observer Bormann thinks they must have been mistaken, as it was at least ten degrees too warm, in the city at least, to produce frost. The sun has been out most of today, making it much more agreeable than yesterday.

Miss Blanche Buckner, who has been the guest of her grandmother, Mrs. Mary Murrell, will return to her home in Louisville Sunday morning.

HELD BUSY MEETING

Officers Elected for the Kentucky Bankers.

A Number of Important Matters Were Able Discussed By the State Financiers

OTHER MATTERS DISCUSSED

Local bankers have returned from the state convention at Hopkinsville and report the meeting very successful.

The officers elected yesterday are: E. B. Long, of Hopkinsville, president; vice president, First district, J. R. Wylie, of Princeton; Second district, J. E. McPherson, of Hopkinsville; Third district, J. H. Covington, of Franklin; Fourth district, John T. Moore, of Hartford; Fifth district, James S. Escott, of Louisville; Sixth

district, J. M. Giltner, of Carrollton; Seventh district, J. R. Downing, of Georgetown; Eighth district, J. S. Gough, of Wilmore; Ninth district, W. C. Richardson, of Ashland; Tenth district, John G. Winn, of Mt. Sterling; Eleventh district, W. G. Simpson, of Albany. Executive Committee (to run three years) H. C. Rodes, of Louisville B. G. Witt, of Henderson; E. C. Bohne, of Louisville.

Communications from several members of the West Virginia Banker's association relative to plans for holding a joint session of the Kentucky, Ohio and West Virginia association in 1904 was read to the convention and referred to a committee. Suitable action was taken on the death of the Hon. Vincent Boreing, who was president of the Bank of London and a member of the association.

Authority was given the executive committee in conjunction with Mr. John W. Barr, Jr., to formulate a bill to make uniform laws of the state in reference to protecting commercial paper.

One of the features of the convention was the paper prepared by Mr. John W. Barr, Jr., vice president of

the Fidelity Trust company, of Louisville, and one of the most eminent authorities on banking law in the state.

Mr. Barr began by classifying commercial paper, such as foreign bills of exchange, in land bills of exchange, promissory notes, non-negotiable promissory notes, checks, etc., and in an exhaustive study of the subject proceeded to show that there was no law in Kentucky which makes it necessary to protest non-negotiable notes, checks or inland bills of exchange. And in view of the fact that there was no law making such protest necessary on the three classes of paper mentioned, were payment had been refused he held that it was unwise to do so, as no good end could be accomplished and oftentimes it laid the banking institution liable for damages. Authorities were cited in support of this view. Foreign bills of exchange in the opinion of Mr. Barr, should immediately be protested where payment was refused or it was impossible to locate the party on whom the bill was drawn, thereby insuring any legal protection that might exist in other countries.

In the matter of protesting inland

bills of exchange non-negotiable promissory notes and checks, a number of speakers took issue with the argument advanced by Mr. Barr, while acknowledging him to be a high authority on the subject. Mr. Samuel Casseday said that custom has made the protest of such paper binding if the law did not so provide. He believed that the bank should be safeguarded in every way, and the safest way was to protest. It had been his practice to protest checks, non-negotiable promissory notes and inland bills of exchange ever since he had been in the banking business. He thought it was the right policy to pursue. Occasionally it might lead to trouble but the bank had to take every precaution. Other speakers notably Mr. B. G. Witt, of Henderson, took Mr. Casseday's view of the matter.

Mr. John G. Winn, of Mt. Sterling, one of the ablest speakers on the floor of the convention, took the same view as Mr. Barr. He could not see the necessity for protesting to safeguard the bank when there was no law to make such a protest legal. It only meant that somebody, not the bank, would have to pay notary fees when

no good could come of the protest. On the other hand, circumstances might be such that to lead to an action for damages on the part of the man whose paper had been protested and often times with just ground. There must be law to support the protest before it would do any good to protest, and if there was no law providing for the protest of certain classes of commercial paper he failed to see what end could be served by the protest.

As stated, the convention, on motion, authorized the chair to appoint a committee to go before the next legislature with a carefully framed bill making uniform the laws on the subject of protesting commercial paper.

Elsewhere in today's paper is printed a letter which should be the means of bringing to Scott Hardware company the names of all the engaged lassies in the city. If you know of an engaged couple telephone it at once to Scott Hardware Co. Phone 16 and your name will be blessed.

There is nothing more effective to the run down digestive organs than pure pepsin, and while pepsin alone corrects the overworked digestive organs, a tonic, such as pure port wine, is also necessary to keep them in this condition.

We must make at least half of our own happiness in this world.

THE WEATHER.

Fair tonight and not so cold in the eastern portion. Fair and warmer Saturday.

YOU'LL HAVE TO SHOW US.

There is a growing demand throughout the state for a look at the books. It is desired to know how much money the Democrats spend for state government. Colonel Belknap, Republican nominee for governor, gives one set of figures and Governor Beckham, while he fails to furnish figures himself, says Colonel Belknap's are wrong.

It is now demanded, as Governor Beckham has access to the records and

MORE MASSACRES

Turks Still Engaged in Killing and Burning.

Several Massacres are Reported During From the Seat of War.

THE END NOT IN SIGHT.

Sofia, Sept. 18.—The foreign office here has received reliable information that the Turks have destroyed the town of Kastoria, thirty-six miles south of Monastir, and have massacred the population.

The report of the massacre at Kastoria comes from sources admitting of little doubt, though the details are lacking. It was received with the gravest concern by officials here.

The population of Kastoria numbers about 10,000, and the massacre of such a number in one place, if the report be true, exceeds anything which has yet occurred in Macedonia. At the present critical moment, when popular feeling is intense, the effect of the report of such stupendous slaughter may be most serious.

The press is assuming a belligerent tone. The Dnevik tonight complains that the government's partial mobilization of three divisions is utterly inadequate, and urges the immediate

mobilization of the whole Bulgarian army, pointing out that the experience of other nations, France, the United States and Austria, has proved that it is always necessary to display strength when dealing with Turkey.

Report from Monastir of the burning of villages and the massacre of their inhabitants continues.

The Autonomists published the names of thirteen villages in the vilayet of Monastir which were recently destroyed by regular troops and Bashi Bouski and also announces that the monastery of the Holy of Holies, near Ohrida, has been destroyed. At the massacre Turkish soldiers killed an entire family, the Bulgarian priest, his child and his grandchildren, thirty-five in all.

NO LEGAL STEPS.

WILL BE TAKEN TO RECOVER CHILD.

Mrs. Charles Thacker from whose home little Dolly Bethel was kidnapped yesterday by her mother, has given up hope of securing the child again.

She consulted an attorney who advised her to let the matter drop as she had not legally adopted the child who had been placed in her hands merely to satisfy the dying wish of its father. She does not know where the child was taken but presumes it was taken from the city.

J. GALVIN PROMOTED.

HE IS MADE AN ASSISTANT I. C. ROADMASTER.

Friends in the city of Mr. J. Galvin will be pleased to learn that he has been made assistant roadmaster of Tallaschatchie, Sunflower, Boundaway, Greenwood and Tchula districts of Memphis division of the Yazoo and Mississippi Valley railroad, effective at once. Prior to this appointment, which is a promotion, Mr. Galvin was road supervisor of the New Orleans division of the Illinois Central, with headquarters in McComb City, Miss.

GERMAN SYRUP.

We want to impress on our readers that Boschee's German Syrup is positively the only preparation on the market today that does relieve and cure consumption. It contains the specifics, such as pure tar, extracts of gums, etc., which have been so highly endorsed for the cure of coughs, colds and consumption by the great medical congresses.

The consumptive, whether his disease is in the throat or lungs, must have rest at night, and be free from the spasms of dry and racking cough in the morning. The diseased parts want rest, healing and soothing treatment, and the patient needs fresh air, good food, etc. German Syrup will give free and easy expectoration in the morning with speedy and permanent relief. Small bottles, 25 cents; regular size, containing nearly four times as much, 75 cents. At all druggists.

Mr. Buck Mount returned to Eddyville this morning.

WHAT WILL YOU DO ABOUT IT?

Louisville Post.

Governor Beckham makes his campaign very "aggressive" on the Goebel assassination issue. But he will find that the people of Kentucky are not to be diverted from the consideration of their public affairs, finances, taxation, expenditures and the condition of the public service compared with the extravagant appropriations. All of these things directly affect the state's welfare. The outbreak of men like Walton, Richardson and Blackburn, and their vociferous and vindictive denunciation of the first citizens of the state, indicate a purpose on the part of the campaign managers of the Democratic party to distract the attention of the people from the business issues of the campaign.

Governor Beckham speaks in affected alarm of "militarism" in Kentucky; of the militia acting under Governor Bradley's orders intimidating voters and overthrowing popular institutions.

The public will not be deceived by such denunciations. They want to know whether or not Governor Beckham has used the militia more than Governor Bradley; whether or not the Democratic opponents of militarism have not utilized the military forces far more frequently than the Republican officers.

It is true, we believe, that the expense of the militia of Kentucky under Mr. Beckham has been four times what it was under Mr. Bradley. If this be true the real danger of militarism—that is, the building up of a little military coterie, either as grafters or as election intimidators, in control of civil affairs—comes not from the Republican party at all, but from the Democratic party, and not really from the Democratic party, speaking broadly, but from the Beckham faction now dominant because of its alliance with the Louisville ring.

Governor Beckham speaks boastfully of the fact that the financial condition of Kentucky is excellent. We fear that he is not enough of a business man to know that there are two sides to every ledger, two sides to every cash book, and that the public must read both sides to understand the exact condition of the state of Kentucky. It is no credit to an administration to take a state out of debt if the resources of the state have been vastly augmented through increased assessments, increased taxation and the collection of long-standing, but well recognized, claims against the general government.

It is no credit to an administration to take a state out of debt if the resources of the state have been vastly augmented through increased assessments, increased taxation and the collection of long-standing, but well recognized, claims against the general government.

These are facts that will be elaborated during the coming campaign, and they are facts that make absurd the governor's pretense that we have had a business administration at Frankfort, and that the finances of the state are in a healthy condition. During the past four years there has been enough money wasted through grafts and grafters, through increased pay-roll and extravagant appropriations to have

built at Frankfort the finest capital in the south, to have improved and elevated everyone of the public institutions, then to have left a large fund for educational purposes. None of these things has been done, though the people have contributed money to do them. The money contributed has been largely wasted—wasted everywhere.

Berry went to Smithland today to move for a new trial in the case of Ernest Elendorff, of Paducah given eighteen months for alleged complicity in the Lola safe blowing for which George Culver, alias Spotty Wing, received sixteen years. If a new trial is refused an appeal will be taken.

TRIAL AT SMITHLAND—An interesting suit is being tried in circuit court at Smithland, Ky. J. C. Sullivan lives in Livingston county, and had never been on a train until last spring, when he boarded an I. C. fast train at Grand Rivers. He did not know that before a train reaches a station the brakeman comes through the car and shouts the name of the station being approached, and when the brakeman came through this train and shouted "Paducah" Sullivan, thinking he was about to be carried by, ran out before he could be stopped and jumped, being painfully hurt. He has sued the company for \$2000 and the case is now being tried.

AFTER A SCALP—An alarm of fire was turned in from box 22, 11th and Broadway, last night about 8 o'clock, and the department on making a hard run found that there was no fire and no reason for turning in the alarm. Chief Wood is very indignant at the conduct of some one who for many months past has been accustomed occasionally to turn in false alarms at that box, but has never been able to learn positively who does it. Formerly every few Sundays an alarm would be turned in, and while a certain person was under suspicion, no evidence could be secured. It is believed that last night's alarm indicates the offender is up to his old tricks again and if he is ever caught he will regret it for many a day.

DEATH IN GRAVES.

Mayfield, Ky., Sept. 18.—Mr. John Adams, aged 70, died at his home near Pilot Oak from paralysis, leaving a wife and one child.

Mr. Linus Orme returned from the south today.

BACK UP.

IF COFFEE IS THE "HIDDEN WORKER" IN YOUR CASE.

Study your diet and see if in a natural way you can build back to good health, which means steady nerves and the good old comfortable easy feeling of being well. If you drink coffee and are ill you should make sure whether coffee is, or is not, the cause of the trouble.

The easy way is to shift to Postum for a few weeks and then weigh results. A Texas lady says: "I was attacked with nervous prostration three years ago this month and became so weak and nervous that I could not talk to any one or have any one talk in my room. My circulation was so poor I was so weak I could not even read. Everything I tried failed to help me and it was not until I read an article in the newspaper and gave up my coffee and drank Postum Food Coffee that I had any relief.

"But from the time that I quit coffee and shifted to Postum I began to improve and I am now completely restored to health. My nerves are strong and sound and I am normal in every way." Name given by Postum Co., Battle Creek, Mich.

This same result always follows the use of Postum which is a food drink, in place of coffee which is a drug drink. "There's a reason."

BERT ROBERTS, A TWELVE-YEAR-OLD HIGHWAYMAN, ESCAPES FROM JAIL.

Bert Roberts, the twelve-year-old boy who was held over for highway robbery several days ago, escaped from the county jail this morning about eight o'clock and at last accounts had not been caught.

Roberts and another youth were out near Terrell's hill with a floribunda rifle when they came across four other boys about the same age, and robbed two of them. The case was tried before Judge Sanders who held them both over to the grand jury.

Roberts had been kept in a cell in the front part of the jail and while he was being taken to breakfast ran out the front door and made good his escape. He is the boy who had an arm hurt and almost broken a few days ago by catching it in the cell door.

If you are tired, broken down, despondent, worn out, pale, losing flesh, have no energy, don't feel like arising in the morning for the day's work, you should take a bottle of this wonderful medicine.

BOGOT, Miss., March 19, 1903.

Gentlemen: It affords me no little pleasure to testify to the wonderful properties of Hayes' Beechwood Emulso-Hypo with Iron as it saved my life when the physicians said that I could not get well. After taking six or eight bottles I weighed 140 pounds. That has been ten years and I am still living in fine health. Wishing you success in its sale, I am yours truly,

FRED S. DAWSON.

Gentlemen: Having used Hayes' Beechwood Emulso-Hypo with Iron I cannot commend it too highly to others as a tonic flesh builder and to give strength, blood and muscle. It is superior to any preparation of which I have any knowledge. I take pleasure in sending it.

Yours truly,

Pastor M. E. Church, South.

Read what the editor of the Southerner, Okolona, Miss., says:

Shoffner-Hayes Medicine Co., Paducah, Ky. In 1901 my mother commenced taking Hayes Beechwood Emulso-Hypo with Iron when the doctors said her lungs were so badly involved that she would not likely be alive but a few weeks. It improved her so rapidly that she was soon in good health for one of her years. I wish you success, you deserve with your Beechwood Emulso-Hypo.

THE CHAMPS BEATEN

Paducah Walked Away With
Yesterday's Game.

The Cairo Boys Coulon't Beat Witt-
Derrick Pitched for the
Cairoites.

MANY ERRORS WERE MADE

A very small crowd was out yesterday to witness the first game of the loving cup series with Cairo. The weather is not very conducive to either good ball playing or watching the game, and it was not much of an exhibition. Paducah won easily from the champions, despite the fact that the Indians made eleven errors.

Witt pitched against his former associates and they couldn't hit him. Derrick, a deaf mute, pitched for Cairo. Wallace the heavy hitter couldn't do much, or at least didn't do much. Those who have seen Wallace bat know he "can" do a plenty, but he failed to connect yesterday. The summary is:

BASEBALL NOTES.

Lloyd and Bourgoise will be Cairo's battery today.

Doyle or Hudson and Edmunds will be Paducah's battery today.

"Rube" Gardner, Henderson's crack pitcher, has arrived here and will pitch the game against Cairo Sunday.

Cairo kindly consents to giving Paducah fourth place in the league standing, for which we are duly thankful, considering that Cairo has made the standing whatever she wanted all along. Why not give us second place?

Paducah should not imagine that Cairo is easy. Yesterday was "the next day" for some of the Cairo boys. Night before last they were given a big banquet at Cairo and it could hardly be expected that they would put up their best after surrounding the campaign they probably had.

There is a whole lot of talk in baseball circles about this and that club "throwing games" or this or that club trying to buy other clubs to throw games. This does not help the sport, and something should be done to stop it, inasmuch as most of it comes from players themselves and consequently has more weight than if only common rumor. Paducah fans do not want the home team to win except on its merits and it is presumed the people of other league cities are the same way.

Secretary Farnbaker, of the K. I. T. league, stated this morning that there would be no trouble over protested games he thought as no legally filed protests were on record with him except two by Cairo and several by Hopkinsville, the latter being withdrawn. Hoptown filed protests because Accorsini had been playing with Henderson while Accorsini played with the latter would be thrown out as well as those lost by Henderson. The chief complaint and cause for protesting was in the loaning of players by one team to another. The board of directors of the league will hold a meeting probably before the 10th of October and all managers should send in their reserve notices before the 10th of October and if they want to reserve their men and this must be accompanied by the \$10 membership fee.

MERCURY

A POOR CRUTCH.

Experience is a dear teacher, as those who pin their faith to Mercury find out sooner or later. This powerful poison combined with Potash, is the treatment generally prescribed for Contagious Blood Poison, but failure and disappointment is the inevitable result. These minerals drive in the sores and eruptions, and apparently the disease is gone and the patient believes the cure permanent, but soon learns better when the old symptoms return almost as soon as the treatment is left off. You must either keep the system saturated with mercury or endure the tortures of sore mouth, ulcerated throat and the mortification that one naturally feels when the body is covered with disgusting sores, rashes, copper-colored splotches and other aggravating symptoms of this vile disease.

Mercury and Potash are poor crutches, and their use eventually breaks down the constitution, ruins the digestion and cause the bones to decay.

S. S. S., a guaranteed purely vegetable remedy, is the only antidote for Contagious Blood Poison. It destroys every atom of the deadly virus, overcomes the bad effects of the mercury and cleanses the blood and system so thoroughly that never after are any signs of the disease seen. Nor is the taint ever transmitted to others.

We will send free our book on Contagious Blood Poison, which is interesting and contains full directions for treating yourself at home. Medical advice or any special information desired given without charge.

ALICE OF OLD VINCENNES

By MAURICE THOMPSON

Copyright, 1900, by the BOWEN-MERRILL COMPANY

"Vous me pardonnerez, monsieur," she mockingly exclaimed, picking up his weapon and offering the hilt to him. "Here is your sword!"

"Keep it," he said, folding his arms and trying to look unconcerned; "you have captured it fairly. I am at your mercy; be kind to me."

Mme. Roussillon and Jean, the hunchback, hearing the racket of the foils, had come out to see and were standing agape.

"You ought to be ashamed, Alice," said the dame in scolding approval of what she had done. "Girls do not fence with gentlemen."

"This girl does," said Alice.

"And with extreme disaster to this gentleman," said Beverley, laughing in a tone of discomfiture and resignation.

"Ah, m'sieu', there's nothing but disaster where she goes," complained Mme. Roussillon. "She is a destroyer of everything. Only yesterday she dropped my pink bowl and broke it, the only one I had."

"And just to think," said Beverley, "what would have been the condition of my heart had we been using rapiers instead of leather buttoned foils! She would have spitted it through the very center."

"Like enough," replied the dame indifferently. "She wouldn't wince, either—not she."

Alice ran into the house with the foils and Beverley followed.

"We must try it over again some day soon," he said. "I find that you can

There was a ring and a jerk—he was disarmed.

show me a few points. Where did you learn to fence so admirably? Is M. Roussillon your master?"

"Indeed he isn't," she quickly replied. "He is but a bungling swordsman. My master—but I am not at liberty to tell you who has taught me the little I know."

"Well, whoever he is I should be glad to have lessons from him."

"But you'll never get them."

"Why?"

"Because."

"A woman's ultimatum."

"As good as a man's," she briddled prettily; "and sometimes better—at the foils for example. Vous—comprenez, n'est ce pas?"

He laughed heartily.

"Yes, your point reaches me," he said.

When Beverley, taking his leave, passed through the gate at Roussillon place, he met Rene de Ronville going in. It was a notable coincidence that each young man felt something trouble, some rise in his throat as he looked into the other's eyes.

A week of dreamy autumn weather came on, during which Beverley managed to be with Alice a great deal, mostly sitting on the Roussillon gallery, where the fading vine leaves made fairy whisperings, and where the tempered breeze blew deliciously cool from over the distant multicolored woods. The men of Vincennes were gathering their Indian corn early to dry it on the cob for grating into winter meal. Many women made wine from the native grapes and from the sweater and richer fruit of imported vines. Mrs. Roussillon and Alice stained their hands a deep purple during the pressing season and Beverley found himself engaged in helping them handle the juicy crop, while around the overflowing earthen pots the wild bees, wasps and hornets hummed with an incessant, jarring monotony.

Jean, the hunchback, gathered ample stores of hickory nuts, walnuts, hazelnuts and pin oak acorns. Indeed, the whole population of the village made a great spurt of industry just before the falling of winter, and presently, when every preparation had been completed for the dreaded cold season, M. Roussillon carried out his long cherished plan, and gave a great party at the river house. After the most successful trading experience of his life he felt irrepressibly liberal.

"Let's have one more roaring good time," he said. "That's what life is for."

2700 WORKMEN.

One of the principal reasons for advocating the use of any good article is that quality will be long remembered after price is forgotten. Now take for instance a coffee pot or an oatmeal cooker. These two articles are used every day of the year and in nearly every family in the city. If you can get these articles to last five years instead of one year can't you readily see where you can well afford to pay a little more for them. This is what prompted us to secure the agency for the Stransky Ware made in a factory which employs 2,700 workmen. This ware has never been brought to our city on account of no firm ever having the nerve to buy a large enough quantity to secure the right prices.

Strausky's man made a special trip to induce us to take hold of it, and as a result of his visit a large shipment was imported in the original packages and is now on exhibition at the new stores of Scott Hardware company, just across the street from the Palmer house on Broadway.

It will be a pleasure to show these goods and unless YOU buy them YOU will be the loser. Every article is guaranteed and if not satisfactory bring it back and no questions will be raised.

STRANSKY WARE IS THE WARE THAT WEARS. Scott Hardware company are the sole agents. See the beautiful window display

RAISED FROM THE DEAD.

C. W. Landis, "Porter" for the Oriental Hotel, Chanute, Kan., says:

"I know what it was to suffer with neuralgia, dear I did, and I got a bottle of Ballard's Snow liniment and I was 'raised from the dead.' I tried to get some more, but before I had 'disposed' of my bottle, I was cured entirely. I am tellin' de truth, too," 25c, 50c and \$1 at DuBois, Kolb and Co.

MISS RUTH BRYANT

TO BE MARRIED TO AN EASTERN ARTIST

Lincoln, Neb., Sept. 18.—William H. Leavitt, a portrait painter, of Newport, R. I., is to lead Miss Ruth Baird Bryan, daughter of William J. Bryan, to the altar in October. Announcement to this effect was made by Miss Ruth at a dinner party at the home of Mrs. Mary Fitzgerald, given to the University of Nebraska Chapter of Delta Gamma, of which Miss Bryan is a member. The prospective son-in-law of the former presidential candidate came from the east several months ago to paint a life size picture of Mr. Bryan to hang in the Bryan home in Fairview.

IN BAD SHAPE

MUCH COMPLAINT ABOUT CHAMPY'S BRIDGE IN COUNTY.

Much complaint is being made about Champy's bridge, on the Mayfield road. Mr. Felix Rogers, while coming in to market this morning, claims that his horse fell through the rotten plank and that it is remarkable the animal was not badly hurt. He says the bridge has been in bad condition for some time, and is now positively dangerous.

MONUMENT AT SHILOH.

Nashville, Tenn., Sept. 18.—Senator Bate and Captain H. J. Cheney, members of the committee appointed to locate the spot where so many members of the Second Tennessee regiment lost their lives in the famous charge at Shiloh Sunday morning, have returned from a visit to the park. They succeeded in locating the exact spot about 100 yards to the left of Shiloh church. A \$2,000 monument will be erected to the regiment on this spot. Elaborate ceremonies will attend the dedication of this monument.

GROUP.

Usually begins with the symptoms of a common cold; there is chilliness, sneezing, sore throat, hot skin, quick pulse, hoarseness and impeded respiration. Give frequent small doses of Ballard's Horehound Syrup, the child will cry for it, and at the first sign of a croupy cough, apply frequently Ballard's Snow Liniment externally to the throat. 50c at DuBois, Kolb and Co.

REPUBLICAN COMMITTEE.

The Republican city committee is hereby called to meet at The Sun office next Friday evening at 8 o'clock to consider the time and manner of nominating candidates for city office. All Republicans invited to attend. F. M. FISHER, Chairman.

STREET IS FINISHED.—The work of improving 14th street from Broadway to Monroe streets has been completed by Contractor Terrell and its acceptance will probably be recommended by the mayor and street committee at the next council meeting.

Theatrical Notes.

Jerrold Shepard's new Southern romance "Red River" had a very successful opening at Chester, Pa., on Labor Day. Manager Charles Nuckles has given the play a lavish production and the general verdict of the first performance was entirely favorable.

"Hermann the Great" the most wonderful of all modern necromancers, will appear at The Kentucky tomorrow afternoon and night. Hermann stands alone in the world of magic today. There is a cremation effect startling in its realism, where the subject vanishes in a wreath of smoke and flame in full view of the audience. There are a number of new tricks compounded of the mysterious and the humorous in equal parts which leave the spectator in a state of bewilderment and laughter.

"An Aristocratic Tramp," Kilroy and Britton's new Metropolis comedy drama success, to be seen at The Kentucky on next Tuesday night promises to prove one of the very best theatrical offerings of the local season. One of the features, an automobile race ending in an apparently terrific and death dealing explosion, is said to be by far the most sensational effect yet produced by stage mechanism. There are seven big specialty acts introduced which serve to make "An Aristocratic Tramp" what every one wants to see.

The Waifs of New York comes to The Kentucky next Wednesday night. One of the sterling qualities of this play in which merry Katie Emmett has been before the public as a star for over a dozen years is the fact that appeals to all classes not only to the boy in the gallery, but to those in the high seats for its heart interest. It is decidedly one of the first of the successful plays of the latter day rage for sensation and that it is of the best is forcibly attested by the fact that while others have come and gone it still goes merrily on making both money and reputation for clever Katie Emmett. Popular prices.

S. H. Dudley, in his character of "Jim Jackson," with Richard & Prince's Famous Georgia Minstrels here Monday night has the opportunity to make for himself a lasting reputation. It is a bit of character work that is not alone funny, but is artistic. "Jim" will be seen in all his troubles at the "Policy Shop." Besides a former Dudley is also a producer and author. He stages the show for the managers, and also writes many of the songs used in the performance.

The company this season is a large one, numbering over fifty people, and boasts of having the six highest salaried solo singers in America.

The big parade, using two bands, takes place about noon. Mr. Oscar Gould, who was treasurer of the Ferrari Bros. Carnival Company here last spring, is manager of the company.

About five years ago three disconsolate looking individuals met in their apartments. They had just come from their publishers, where they learned to their consternation that they owed Joseph W. Stern & company fifteen hundred dollars, which they had drawn over the amount of royalties due for the first year's sales of their songs. At that time "Under the Bamboo Tree," and the "Congo Love Song" had not been written, for Cole and Johnson Brothers were the unhappy ones referred to. "Boys, this is hard luck," said Rosamond Johnson. "What in the world shall we do?" groaned Bob Cole.

"Do," answered James W. Johnson who is of a philosophical turn of mind, "I think we've done very well. As far as I can see our publishers are the ones to worry."

But the publishers didn't have to worry long, for they now pay royalties to the same trio every year an amount that would make a handsome salary for a trust president.

21 YEARS A DYSPEPTIC.

R. H. Foster, 318 South 2d St., Salt Lake City, writes: "I have been bothered with dyspepsia or indigestion for 21 years; tried many doctors without relief; recently I got a bottle of Herbine. One bottle cured me. I am now tapering off on the second. I have recommended it to my friends; it is curing them, to." 50c at DuBois, Kolb and Co.

NEW MARINE WAYS.

COMBINE TO HAVE PLANT AT EVANSVILLE.

The American Rivers Shipbuilding Combine, of which Capt. Ed J. Howard, of Jeffersonville, is president, has closed negotiations for the erection of marine ways at Evansville. The ways will be begun soon and will be ready for work by spring.

Capt. Lee Howell, of Evansville, is promoting the plan in that city and will have charge of the local ways.

Capt. Howard said that while the ways were to be erected he did not care to give out any information about details, leaving that to the local managers. This is the combine that several months ago bought the Paducah Marine Ways, and now owns everything in the boat building line from Cincinnati to Cairo.

NEW STREET CAR SCHEDULE.

Night schedule for the street cars hereafter is as follows: Cars will leave Broadway and First streets for Dossett's station on the Broadway line and for the Trimble street division at 10, 10:30 and 11 p. m., and Fourth and Broadway for Union station at the same hours. The Jackson street and north end division of the Rowlandtown line cars will stop, however, promptly at 10.

Patrons please note.

FORMERLY LIVED

IN KENTUCKY.

Portland, Ore., Sept. 18.—The body of Thomas J. Bunch, who disappeared from his Seattle, Wash., home months ago, was found floating in the water of the bay at Pier No. 1, Seattle. Mr. Bunch was bookkeeper for the Riverside Timber company. On the afternoon of August 25 he left his office and telephoned to his wife not to expect him home until late in the evening, as he would stop at the city hospital to visit his sick son. From that hour nothing has been seen or heard of Mr. Bunch until his dead body was discovered today, weighted with iron in his pockets. His home was at Rochester, Ky., where he was born 53 years ago. He leaves a wife, daughter and two sons.

DEVOURED BY WORMS.

Children often cry, not from pain, but from hunger, although fed abundantly. The entire trouble arises from inanition, their food is not assimilated, but devoured by worms. A few doses of White's Cream Vermifuge will cause them to cease crying and begin to thrive at once, very much to the surprise and joy of the mother. 25c at DuBois, Kolb and Co.

To Our Dorothy Dodd Customers and Also Those Who
Have Never Worn This Celebrated Shoe.

DEAR FRIENDS:

YOU have the average health and the average strength of a woman of your age. Yet you find yourself unduly fatigued by a day spent upon your feet. This is not a question of your condition but a question of your shoes. It is just here that we can help you.

We have built our famous "Dorothy Dodd" Shoe on an entirely new plan

Not shaping it from guesswork measurements on a wood last, but using the actual bones, muscles and ligaments of the foot as the last for the shoe, working entirely from "X-ray" photographs. The result is the most remarkable shoe you ever dreamed of, and one which makes no day too long for its happy possessor. We can never make you realize its comfort till you try a single pair. Won't you do this today? Very truly,

GEO. ROCK.

French Lick and
West Baden Springs

In the highlands of Indiana—a two hour ride from Louisville there flow wonderful healing waters, that you'd spend hundreds of dollars to enjoy if they were in Europe.

A recent visitor from Philadelphia, who formerly went to Carlsbad every year, said: "I do not see why anyone goes to Europe for medicinal waters. The water is as beneficial, and the scenery and surrounding country, the air and the opportunities for recreation are better; the hotels and all accommodations are much finer at French Lick-West Baden Springs"—and this gentleman is a native of Switzerland.

The splendidly wooded hills with the cool, invigorating air of these highlands where one can enjoy rambles in the depths of the forest, or rides and drives among the numerous bridle paths and roadways, afford pleasure for those who desire rest and quiet; while at the splendid and casinos one can have all the entertainment and pleasures possible at the most fashionable resorts.

PUBLIC LIBRARY

THE LAST \$5,000 WAS RECEIVED TODAY BY SECRETARY LANG.

The last installment due from Mr. Andrew Carnegie towards the public library here was received this morning by Secretary Lang, of the board of trustees, and was \$5,000. This winds up Mr. Carnegie's gift of \$25,000, and will be used to pay off the last debts contracted by the board of trustees.

President Perryman returned last night from Jackson, Tenn., where he learned a great deal about public libraries and thinks that considerable instruction will have to be given to whoever is elected librarian before he or she is capable of discharging the duties properly. Some means will also have to be devised for accommodating colored citizens, who have a separate room in the Jackson library.
